

Create a Google Class Group

1. Click on the dock at the top right of your screen, and then click on 'Classroom'
2. Once the Classroom screen opens, click on the '+' sign to create a new class
3. Then click 'Create Class'

Google Classroom

Create class

Class name (required)

Section

Subject

Room

Cancel Create

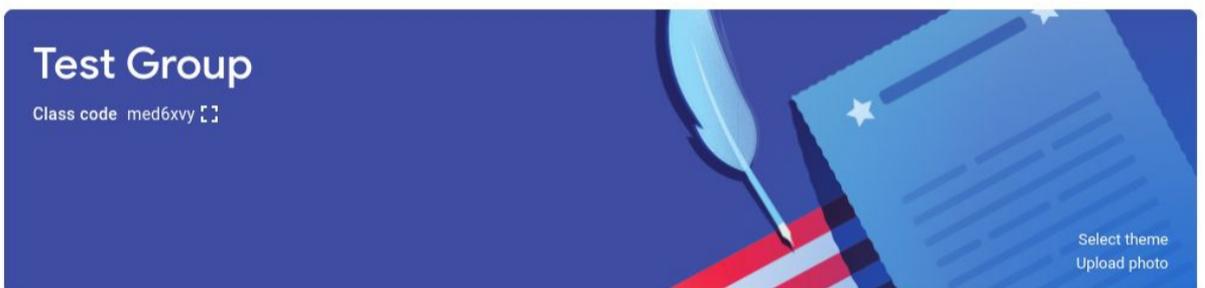

4. Give your class a name. Optionally, you can also add subject, section, etc. Click 'Create' once you're done.

5. Once the group is created, (takes a little bit of time) you will automatically be taken to a new screen.

6. To add students to the group, click on the 'People' tab at the top.

Test Group

Stream Classwork People Marks

Upcoming

Share something with your class...

Teachers

7. Here you have 3 options:
Add a teacher (if you're team teaching, for example)

Mr Hurley

Students

Add a student directly

Invite students to join by giving them a code.

Invite students or give them the class code: med6xy

8. Start typing a student's name, and you should get auto fill options. Click on the name you want.

You can add a number of names at a time - so it's pretty fast to do.

Here's a link giving a quick overview, but there are plenty of tutorials available on youtube.
