## Third Level Education!

Have you thought about going to college?

UCC

It might be easier than you think!

UCC PLUS<sup>+</sup> is here to help with a range of programmes and activities.

## What is UCC PLUS<sup>+</sup>?

**UCC PLUS<sup>+</sup> is about YOU and YOUR future!**

Education plays a crucial role in the intellectual, personal and social development of each individual. Third level education is seen as increasingly necessary for a good quality of life and broader and more exciting career opportunities. However, research has shown that many groups are still underrepresented at third level. UCC PLUS<sup>+</sup> strives to target such students and support them to progress to and succeed in third level education. The programme involves 3 core strands: **Schools Programme, Higher Education Access Route (HEAR) Scheme, Post-Entry College Support Programme.**

## Who is UCC PLUS<sup>+</sup> for?

UCC PLUS<sup>+</sup> is for students that have an academic ability to succeed at third level, but for a variety of socio-economic reasons may be prevented from doing so. Students would typically come from lower-income households, with little or no tradition of progression to third level.

### Schools Programme

The aim of the Schools Programme is to enhance the educational aspirations of students and encourage those with academic ability to consider higher education as a real option and support their progression to third level.
